

DATAFACET™

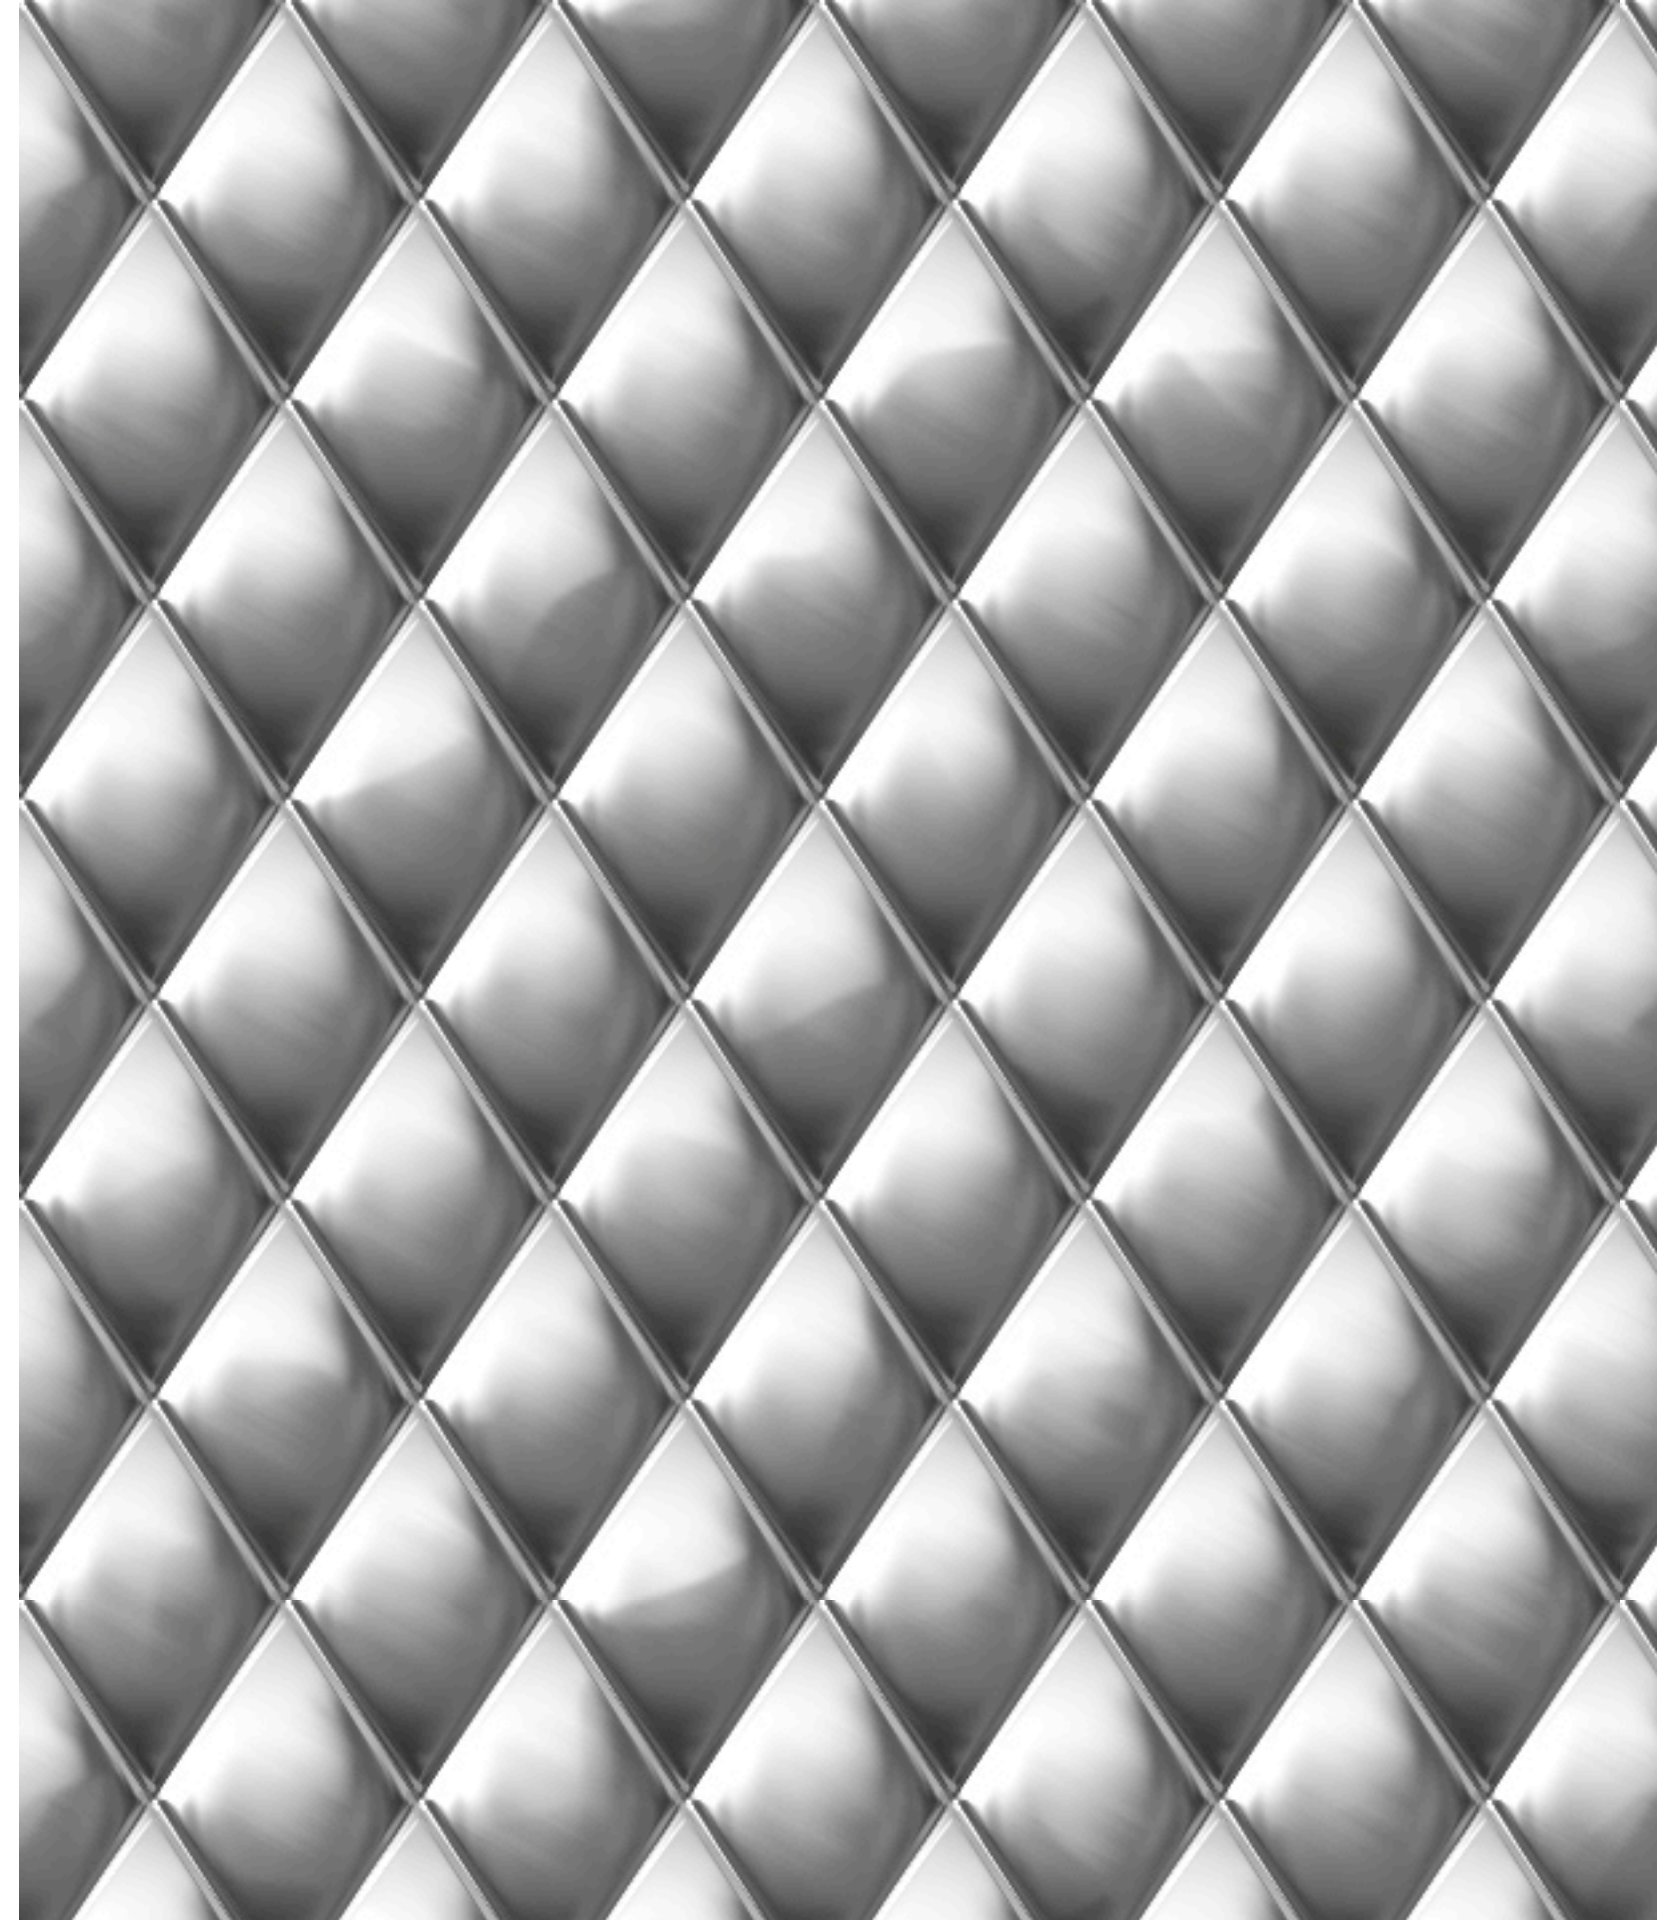

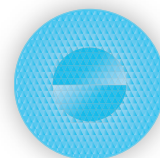

Precision Classification

DataFacet for Enterprise Search
Taxonomy Process Data Flow

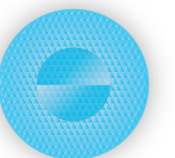

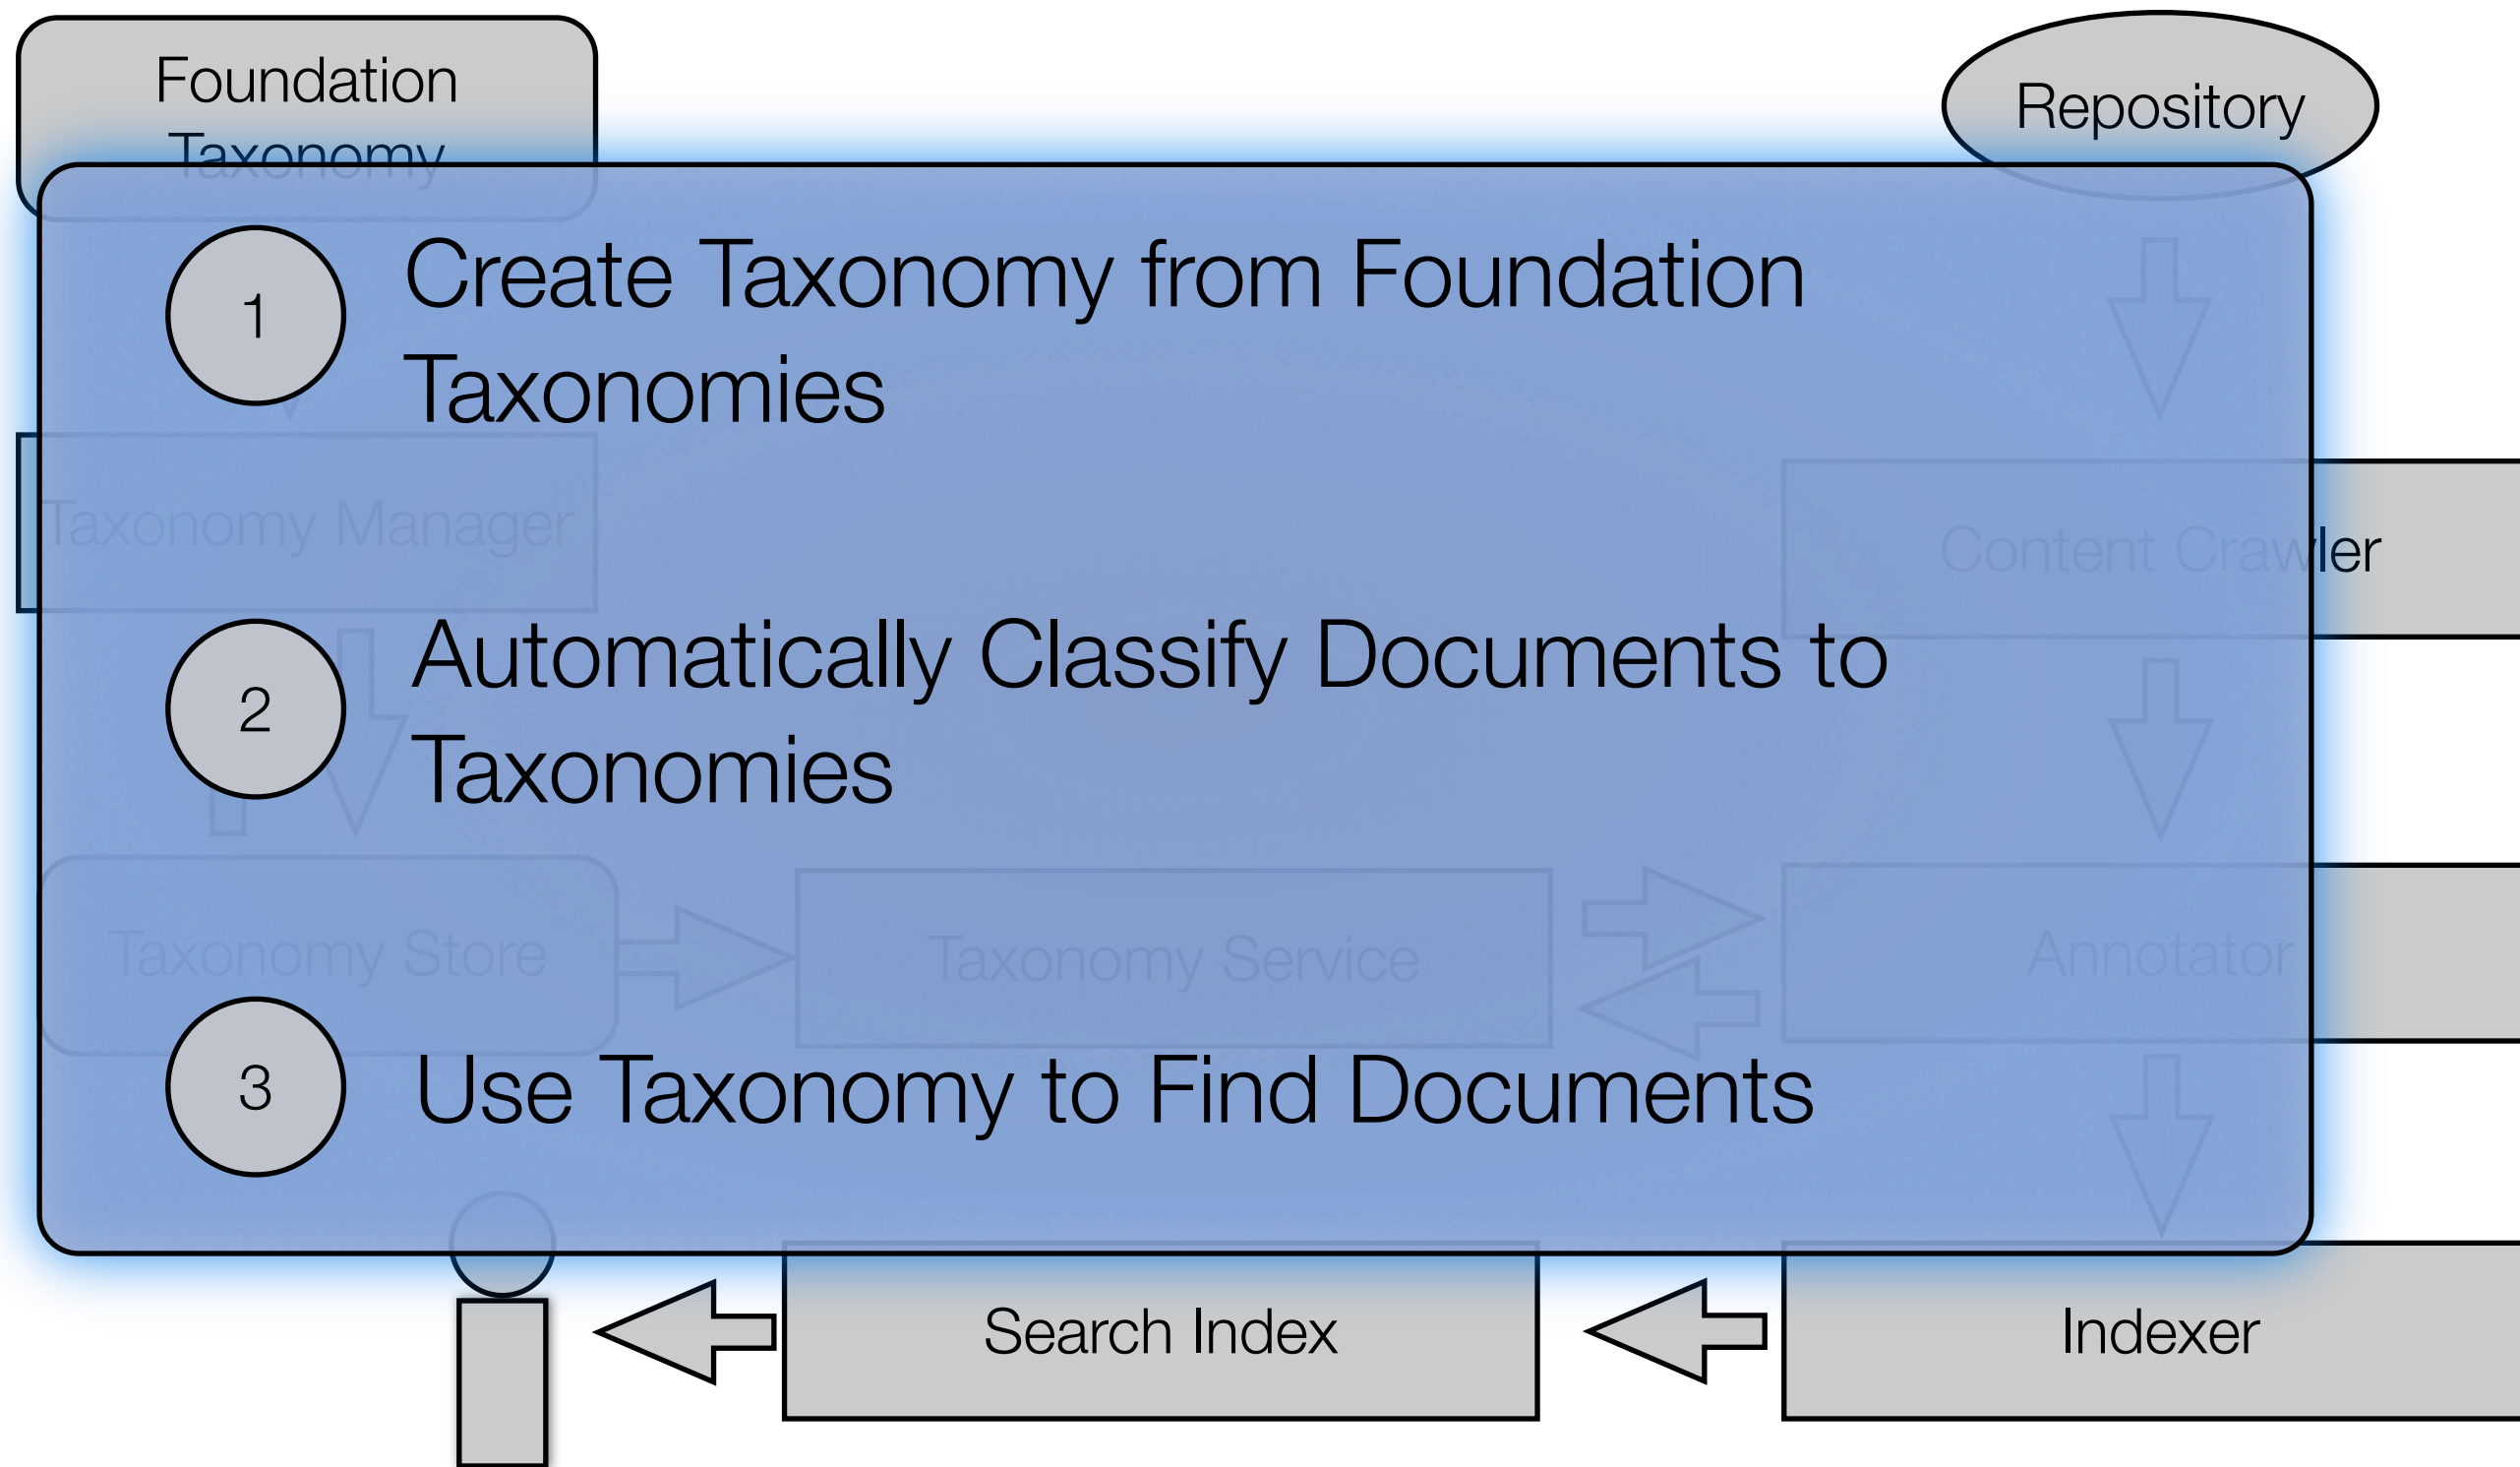

The Macro Philosophy

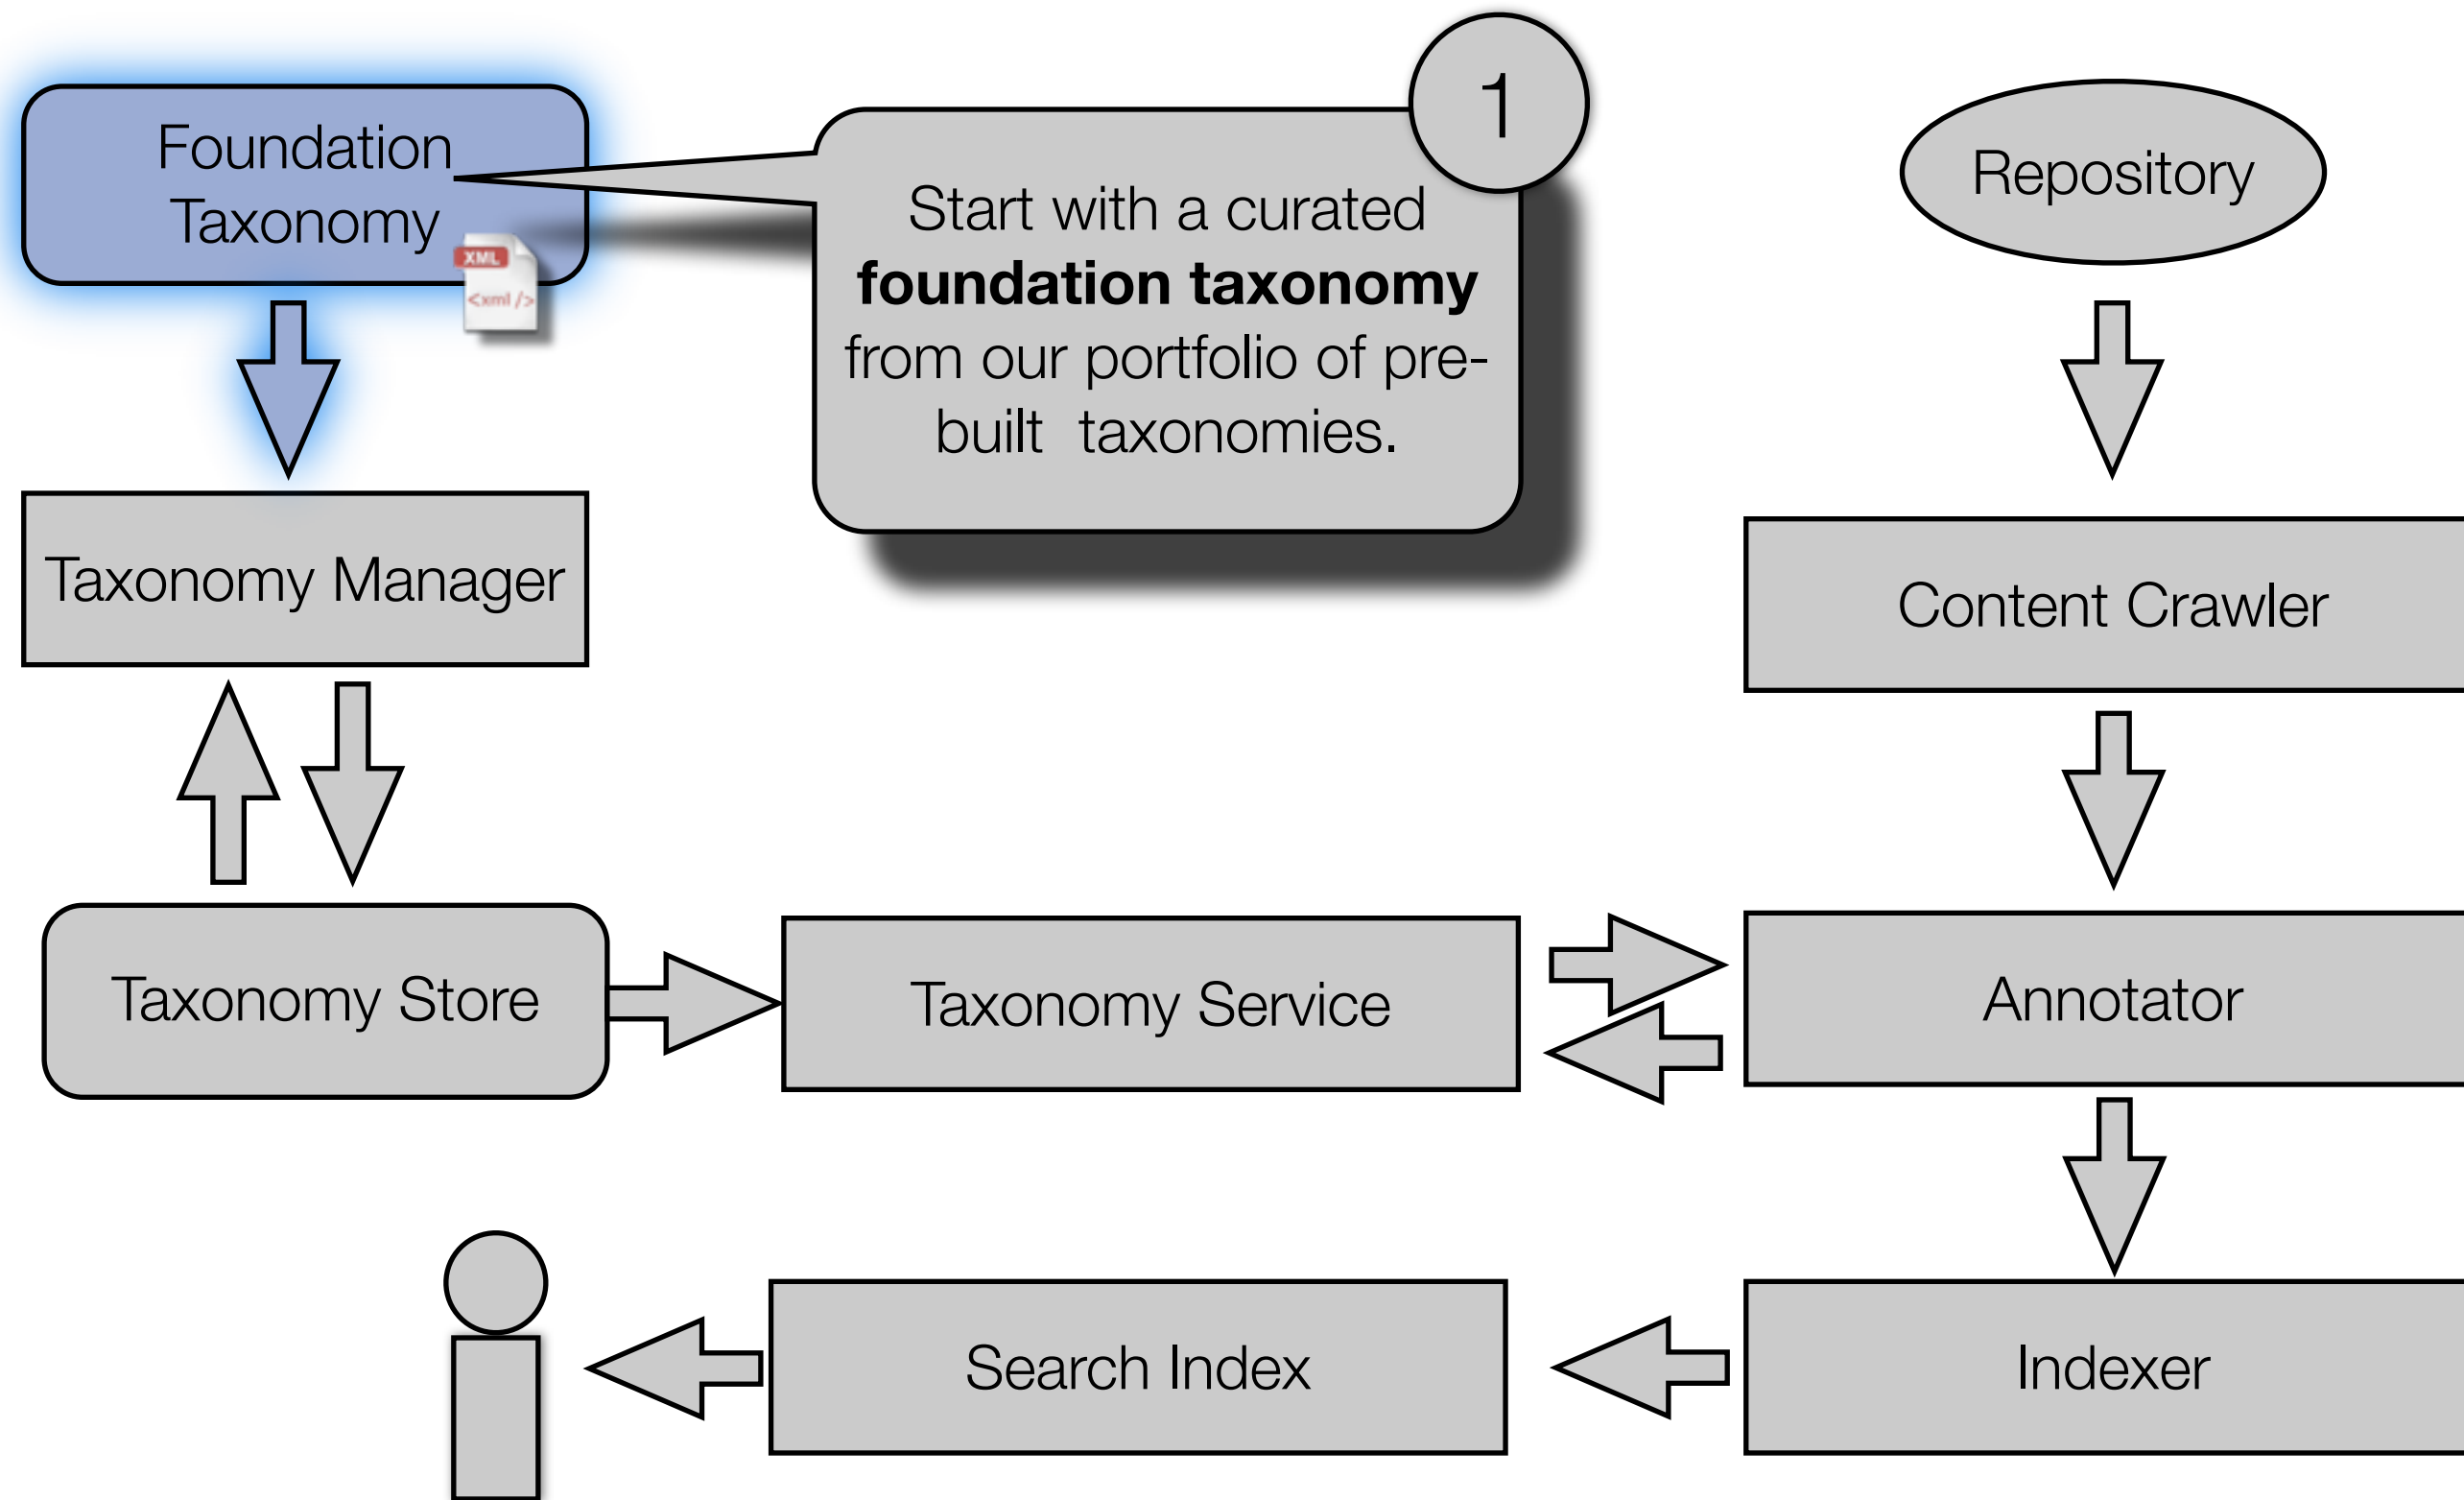

- Provide **curated foundation taxonomies** for enterprise knowledge domains.
- Provide **auto-classification** of enterprise documents.
- Provide **taxonomy management tools** to customize and perfect the foundation taxonomies.
- Provide **intuitive navigation** and **information discovery** of enterprise documents.
- The end result: **extraordinary relevance** of search results for the enterprise user.
